Site Manager
Job #: 2383447
SC Fuels
Phoenix, AZ
DOE compensation
Full Time Employment

Job Description:

We are currently looking for a Site Manager for our Phoenix facility. The manager is responsible for the daily operations of the distribution and inventory of products, the safety of all personnel on site and on the road. Further, insures that all regulations and company policies are adhered to and trained for. The site manager will oversee all personnel, production and distribution activities while ensuring the operation is running effectively, efficiently and safely.

Key Responsibilities:

- The site manager maintains optimum efficiency by assigning staff, creating and keeping work and production schedules, hiring and training new employees, is committed to worker and plant safety and repairs and replaces equipment when needed. The site manager and staff are the last line of defense for quality control of orders to the customer, this must be clear to everyone.

The site manager must demonstrate these skills:

- Interpersonal Skills -- Site managers must be able to speak with employees, other company managers / departments and senior management.
- Leadership Skills -- Site managers must be able to effectively motivate all employees to keep operations running effectively and efficiently.
- Problem-Solving Skills: Site managers must be able to quickly ascertain situations and be decisive in applying solutions. Detection and effective communications are the required skill-set.
- Time Management: Site managers face multiple timelines daily / weekly that require precise time management at all times.
- Planning Skills: Coordinates the plant activities through proper and timely planning with supervisory personal to ensure the total distribution objectives are accomplished on time and cost effectively.

Implement cost effective systems of control over operating expenditures, wages, labor hours and salaries. Establish and monitor overall plant performance through KPI's for production and quality standards while minimizing labor overtime. Incorporates warehouse floor organization and plant cleanliness among plant personal. Provides leadership and training to accomplish company goals and objectives and manages this education process on a continuous basis. Performs other job-related duties as assigned by direct supervisor.
